

eWebOQ® by OQ Partners Chosen by Texas Gas Company

Bay City Gas Company Implements OQ Tool

February 15, 2004 – Bay City Gas Company of Bay City, Texas, has officially chosen the online training and tracking solution, eWebOQ by OQ Partners.

Implementation will begin immediately following the administrative team's completion of the administrator's product knowledge course.

Flexibility was the primary driver in the team's decision to choose eWebOQ. The product's ability to handle both instructor-led training results and deliver just about any course on the planet, no matter who the manufacturer, was key. The Bay City team also wanted the freedom to add their own course content and test questions inside the Curriculum Manager.

With eWebOQ, companies are able to reduce administrative hours and maintain easier control of:

- ◆ Training Records - due to the system's automatic records functionality
- ◆ Reports – they can even generate them on the fly, quickly and easily
- ◆ Course Construction - using the built-in easy-to-use course editing tools
- ◆ Test Creation – they can build tests for any course, even PowerPoint courses
- ◆ Test-Out Options - employees can take a course just on the questions they miss
- ◆ Their Budget - No server hardware to buy and maintain - it's included remotely
- ◆ Performance Checklists – full edit rights for approved administrators
- ◆ Scheduling – either CBT or Instructor-Led Training needs

For more information, contact Municipal Sales at (979) 849-2002.
