

SEOT-SCAT

LEADERS IN THE INDUSTRY

World Wide Services Leader Chooses eWebOQ to Address DOT's Operator Qualification Rule

June 10, 2003 (Houston, Texas) OQ Partners announced today that SEOT-SCAT, known world wide for its versatility in various industrial areas of corporate need, has chosen the partnership's eWebOQ training solution to meet their customers' DOT Operator Qualifications need.

The eWebOQ training solution is a product that was conceived out of a partnership between Center Point Energy Pipeline Services and OverNite Software Inc, a recognized leader in industrial online learning tools. The common goal of the two corporations is to tackle the major issues facing the pipeline industry today – chiefly, getting both existing and new employees qualified in the most cost effective manner.

SEOT-SCAT's goal is to assist companies in achieving the following objectives:

- ✚ Produce a work force that utilizes the safest and most efficient work practices.
- ✚ Reduce accident rates.
- ✚ Decrease the time it takes an employee to become competent in any position.
- ✚ Better relate each individual employee's goals with the goals of the Company.

To achieve these objectives Seot-Scat services include Training, Medical Surveillance Testing, Drug and Alcohol Test, Hearing Conservation

The eWebOQ training solution is powered by ExxTend Learning and its key functions include:

- Internet or Intranet delivery of multiple types of web-based courses
- 24 hour/7day a week online courses, testing, and information delivery
- Built in curriculum management (even from remote locations)
- Automatic record keeping and test grading
- Automatically tracks worker training activities via built-in reports
- Browser based delivery of training support documents
- Adaptive Learning, the hottest test out function on the market
- Even online registration for instructor-led classes
